

InspireIndia

YOUTH ENGAGEMENT FOR NATIONAL IMPACT

Siddhant More, Founder & CEO
Dheer Kulkarni, Founder & CFO

MISSION STATEMENT

Our goal is to cultivate a new wave of active citizenship by propagating political literacy through educational means. Through collaboration, innovation, and a commitment to inclusivity, we strive to create a more equitable and inspiring society.

The Problem

The modern political landscape has found itself disconnected from the youth. They lack access to unbiased information to draw their opinions and knowledge on how to contribute to solving pressing issues and disparities in the country. Despite possessing sufficient resources, the youth lacks the understanding of how to navigate themselves.

The Solution

InspireIndia aims to fix this by providing a forum for the youth to pick up political literacy as a soft skill while complimenting their career trajectories and taking joint action based on deliberated solutions backed by informed decisions.

OUR PROJECTS

Civil Engagement Summit

The InspireIndia Civil Engagement Summit is our quarterly flagship event where we have active changemakers and scholars who host seminars to discuss potential change-making in the modern-day political landscape. Through these summits, future leaders participate in undertaking projects with the InspireIndia Community to drastic changes in the socio-political landscape of the country.

InspireIndia Workshops

As part of our quest for 100% political literacy, we aim to conduct workshops in partnership with schools and educational consultancies on a Pan-India level. Through these workshops, we focus on exposing students to the importance of leadership and empathy and the role it plays in policymaking. These workshops are conducted by certified experts on our team where we leave students with a plethora of new opportunities that they can work on with InspireIndia.

Digital Discourse and awareness

InspireIndia has a plethora of story-telling programs to promote digital discourse in a wider sense. The InspireIndia Digest has a series of weekly articles that we post regularly to engage and educate young minds about contemporary socio-political issues every week. Moreover, we cover stories of inspiring changemakers and activists on our podcast series.

Sarkaari Benefits Program

After conducting surveys and extensive research about the lack of social security and healthcare coverage that Indians have today, we have decided to conduct a project for registering individuals with schemes vetted by the NITI Aayog, Ministry of Health, and Ministry of Labour and Employment under the Ayushman Bharat and PMJDY scheme.

Political Literacy Courses

We believe that through digital means, we can achieve political literacy faster. Team Inspire is currently working on AI-based subjective political literacy courses to ensure a new wave of active citizenship and rational voters.
